

*Sales, Service, Parts, Training, and Demo Rental***Only authorized Brokk distributor for USA and Canada - No others = No Confusion !****Interstate Sawing Company, Inc. acquires fourth Brokk in 18 months**

At 33 years of age, Duke Long turned his back on the good living he made working for others. He and his wife, Sandi sold most of their possessions – from their cars down to the weed whacker. His business strategy was simple; buy the industry’s finest equipment, he’d hire a highly skilled team and never allow his passion for service to waver.

In 1996, Duke Long founded Interstate Sawing Company Inc. with one truck, a temporary office in his home, and the assistance of his wife Sandi. “Sandi went from an Eddie Bauer Explorer to a 1968 Buick,” Duke says, “but she never, ever flinched.” The hard work soon paid off. Today Interstate Sawing operates a fleet of 26 fully equipped trucks from their own 22,000 square foot facility in scenic West Bend, WI.

Duke always believed in using state of the art technology and soon realized how Brokk would go “hand in hand” with concrete cutting. Duke notes, “Brokk services have increased our customer base and revenue due to our increased capabilities the Brokk provides. Brokk has put us in a position to do work that other concrete cutters can’t do and they also provide a safer work environment”.

Thirty years in business does make a difference

After testing another new “Brokk like” robot, Duke decided to invest in another Brokk, making it his fourth (B50,B90,B180,B260) in eighteen months. Duke recognizes Brokks excellent service and support and he notes, “100% of the time Brokk has either gotten us back up & running over the phone or the replacement parts were here the next day”. In tough times, we fall back on what is already proven and established in the market. Brokks more than thirty years in business does make a difference.

Duke is an “owner/operator” in every sense of the word.

While he’s entirely comfortable behind the desk, managing the complexities of running a business this size, he also spends his days in the field - cutting concrete alongside his team. It is here, in the field, that Duke comes up with his best ideas for efficiency and safety.

Interstate Sawing has received many recognitions including: Equipment World’s Contractor of the Year in 2005, Small Business Times Entrepreneur of the Year Award in 2006, and MCISC Perfect Safety Award for 2007. Duke is proud of the fact that in a declining economy he is still able to invest in superior new technology to get an edge on the competition.

With Brokk you too can do it all!

The name Brokk has been taken from the mythical figure Brokk, who forged a hammer for Thor, the god of war, in the realm of the Norse gods. Brokk was small but very strong, just like our machines

About Breaking News
