

Sales, Service, Parts, Training, and Demo Rental

Only authorized Brokk distributor for USA and Canada - No others = No Confusion !

## Brokk & TEI Drills Working together!

Brokk Inc has together with TEI developed a hydraulic drill specifically for use with Brokk 330. The drill is fully powered by the Brokk Hydraulic and electrical system and only a small compressor or water is needed to clean out the drill dust.

Both Brokk machine and drill is radio operated. The drill is mounted on a 360 degree rotator and together with Brokk's unique arm system almost any position is possible.

The Brokk/TEI drill has feeder of 5ft and can drill up to 20ft deep with a 2inch diameter drill.

### Inside this issue:

Or

1-877-Brokk-it

The name Brokk has been taken from the mythical figure Brokk, who forged a hammer for Thor, the god of war, in the realm of the Norse gods. Brokk was small but very strong, just like our machines
